

Centrifugal sifter TURBOWEST

The **centrifugal sifter TURBOWEST** is particularly suitable for control sieving of solid products. The centrifugal sieve sturdy construction and ease of integration into existing plants, makes it an easy choice for sieving a large range of powders and granules, food, chemical, pharmaceutical and plastic products. Successfully used for screening dry or damp bulk materials, the centrifugal sifter, is recommended whenever bagged products or hygroscopic materials are being processed. Lumps and conglomerations are broken gently without any product loss. The **Turbowest sieve** is especially suited for gravity screening in line with pneumatic conveyors.
